Mahindra Lifespace Developers Ltd, the real estate and infrastructure development arm of the Mahindra Group, on February 22 said that it has sold inventory in its first net zero waste and energy homes project in Kandivali East, Mumbai, worth ₹800 crore within a span of three days, the company said in a regulatory filing.

Mahindra Vista is spread across 7.74 acres with total landscaped greens of around 3.5 acres and a biophilic-roof clubhouse. The project comprises 1 BHK to 4 BHK housing units. The first phase comprises three towers with a total of 601 units in various sizes.

Designed with climate-responsive principles, the project derives 100% of its power supply from renewable energy sources and is expected to save around 18 lakh kwh of energy through active and passive energy conservation methods, which is equivalent to powering 212 homes, the company said.

"We are delighted with the success of Mahindra Vista and the growing preference for sustainable living among our customers in Mumbai. This achievement highlights increasing awareness and desire among homebuyers to contribute to a greener future," said Vimalendra Singh, Chief Business Officer (Residential) – West, Mahindra Lifespace Developers Limited.

Mahindra Lifespaces hits milestone with Rs 800 cr sales in just three days at Mahindra Vista

The project derives 100% of its power supply from renewable energy sources

by Jayashree Kiri Mandies | February 22, 2024

SHARE

Mahindra Lifespace Developers, the real estate and infrastructure development arm of the Mahindra Group, has announced the successful sales of India's first net zero waste + energy residential project, Mahindra Vista, located in Kandivali East, Mumbai.

Following its recent launch, the project has sold over Rs 800 Crore worth of inventory within three days. It recently launched a Carbon Calculator, which has also sparked meaningful conversations around individual carbon footprints and sustainability, aligning with Mahindra Lifespaces' vision of inspiring individuals to make environmentally conscious choices.

Designed with climate-responsive principles, the project derives 100% of its power supply from renewable energy sources and is expected to save ~18 lakh kWh of energy through active and passive energy conservation methods, which is equivalent to powering 212 homes. It is also expected to divert ~8 lakh kg of waste away from landfills, which is equivalent to ~786 trucks of waste. The renewable energy sources and is expected to save ~18 lakh kWh of energy through active and passive energy conservation methods, which is equivalent to powering 212 homes. It is also expected to divert ~8 lakh kg of waste away from landfills, which is equivalent to ~786 trucks of waste. The project will also deploy water conservation measures such as low-flow fixtures, treating and reusing sewage wastewater, efficient irrigation system etc., that will save 53% of water from external sources. Additionally, the development includes a dense urban forest that enriches the local biodiversity with over 1,000 indigenous trees.

Vimalendra Singh, chief business officer (residential) — West, Mahindra Lifespace Developers, said, "This achievement highlights increasing awareness and desire among homebuyers to contribute to a greener future. As a city, Mumbai emits ~23 million tons of CO2 annually. We recognize the urgency to address climate change and the role buildings play in carbon emissions. As part of our journey to Mahindra Group's 2040 carbon neutrality goals, we continue working towards our pledge of only Net Zero buildings from the year 2030. Mahindra Vista marks a significant step in our journey towards a more sustainable and environmentally responsible future."

Mahindra Vista is spread across a 7.74-acre with total landscaped greens of ~3.5 acres (~1.9 acres on mother earth plus ~1.6 acre on the podium top) and a biophilic-roof clubhouse. The podium is embellished with a signature-designed Colonnade pathway leading to an infinity-edge pool. Residences ranging from 1 BHK to 4 BHK, the project is thoughtfully designed to deliver optimal levels of natural light and air circulation, while seamlessly integrating your home with the surrounding natural environment through climate responsive and contemporary design styles. This launch is the phase 1 of the project, containing 3 towers, with a total of 601 units in various typologies. Mahindra Vista represents a milestone in sustainable living, harmonizing design, and environmental consciousness.
